

Can't Be Beat Fence Co LLC Highlights Comprehensive Fence Installation Services Across Mississippi Gulf Coast

July 15, 2026

Crane Creek, Mississippi - July 15, 2026 -

Can't Be Beat Fence Co LLC, a leading fencing contractor serving the Mississippi Gulf Coast for over four decades, emphasizes its expanded service capabilities across multiple Mississippi communities as property owners prepare for spring improvement projects.

The company, which has installed over 20,000 fences since 1982, provides fence installation services in Gulfport, MS, and surrounding areas including Pascagoula, Waveland, Bay St. Louis, Pass Christian, Long Beach, Biloxi, Ocean Springs, Gautier, Moss Point, Picayune, Poplarville, and Wiggins. With experienced installers averaging over 10 years in the field, the organization maintains its position as one of the Southeast's largest fencing contractors.

"Property owners across the Gulf Coast region are increasingly seeking reliable fencing solutions that combine durability with aesthetic appeal," said Meredith Anderson, Operations Director at Can't Be Beat

Fence. "Our team brings decades of combined experience to every project, whether it's a residential privacy fence or a large-scale commercial installation. We understand the unique environmental challenges that MS coastal properties face, from salt air to hurricane conditions, and we design our installations accordingly."

The company offers comprehensive fencing solutions, including aluminum, chain-link, vinyl, and wood fencing options for residential properties. Commercial clients benefit from the company's extensive experience as a subcontractor on over a thousand commercial and industrial projects throughout the region. Additionally, the organization maintains background-cleared employees qualified for government and secure facility installations, having completed dozens of military and government complex projects across the Southeastern United States.

Residential fencing in Gulfport, MS, and neighboring communities remains a core focus, with homeowners selecting from various materials based on their specific needs. Chain link fencing provides cost-effective security with a typical lifespan of 15 to 20 years, while wood privacy fencing offers traditional aesthetics and complete seclusion. Vinyl options deliver low-maintenance durability, and ornamental aluminum fencing combines elegance with strength.

The company's approach includes expert guidance through selection, estimation, scheduling, and site preparation processes. Full-time installation crews complete projects efficiently while maintaining the organization's award-winning safety standards. This systematic approach has sustained Can't Be Beat Fence through 43 years of continuous operation, during which many competitors have entered and exited the market.

Commercial and government sectors represent significant portions of the company's operations. The organization's capability to handle large-scale projects stems from its infrastructure and experienced workforce. Sports complexes and playgrounds throughout MS also rely on the company's specialized fencing solutions designed for athletic facilities.

The Mississippi Gulf Coast's unique climate and geography present specific challenges for fence installations. Salt air accelerates corrosion in certain materials, while hurricane-force winds require robust anchoring systems. The company's long-standing presence in the region has enabled it to develop expertise in addressing these environmental factors through appropriate material selection and installation techniques.

Can't Be Beat Fence Co LLC operates from its Perkinston, Mississippi headquarters, serving residential, commercial, and government clients throughout the Gulf Coast region. The company provides free estimates and requires no upfront payment, reflecting its commitment to customer service that has established its

reputation across the Southeast.
